Safety Information

- ❖ Thank you for buying the Roof Mount LCD Monitor with DVD player. Please read this manual carefully before using the player in order to get the most out of all the features and functions. Keep this manual in a safe place, as it can be a valuable tool in helping you to understand all the features and functions.
- ❖ Do not operate the unit in any way other than described within this manual. Failure to follow the instructions within the manual will invalidate your warranty.
- ❖ SAFETY FIRST! Do not install the display where it may (i) obstruct the driver's vision, (ii) impair the performance of any of the vehicle's operating systems or safety features, including airbags, or (iii) impair the driver's ability to safely operate the vehicle.
- ❖ When using the system, make sure you are firmly secured by your seat belt to ensure you do not accidentally hit your head on the screen during sudden braking or other incidents. If you are ever in an accident, injuries can be more severe if the seat belt is not properly buckled.
- ❖ Do not attempt to install or service your display by yourself. Installation or servicing of the display by persons without training and experience in electronic equipment and automotive accessories may be dangerous and could expose you to the risk of electric shock or other hazards.
- ❖ Be careful not to drain the car battery while using the unit with the car engine stopped. To avoid draining the battery, it is suggested that the vehicle engine always is running while using the unit.
- ❖ Do not disassemble or alter the unit in any way. Failure to do so can cause damage to the unit and invalid the warranty.
- ❖ Never clean the surface of the screen with chemical solvent or corrosive detergent, which may cause permanent damage to the TFT LCD screen.
- ❖ Avoid installing the unit wherever is under direct sunlight or near hot air vent. Please note that the normal working temperature of the unit is between -5°C to $+50^{\circ}\text{C}$. If the internal temperature of the vehicle is extremely high, a short cooling down period is necessary before operating the unit.
- ❖ If the temperature inside the car is very low and the monitor is used soon after switching on the heater, moisture may form on the panel of the unit. Turn off the unit immediately! Failure to do so may cause the internal components to short. Allow the unit to rest for about one hour to allow the condensation to disappear before continue operation.
- ❖ In extremely cold temperatures, the movement of the picture may be slow and the picture may be dark. It is not a malfunction. The unit will work normally once it reaches its operating temperature.
- ❖ Do not drop or hit the LCD panel with a hard object, as it may cause

permanent damage to the LCD panel. Should LCD panel break, avoid touching glass and fluid. If do, please clean it with plenty of water and ask for medical attention immediately.

- ❖ Due to different car specifications, please kindly ensure that the display monitor is properly located and not obstructing the air-conditioning vent.
- ❖ Avoid inserting any foreign objects into the slot of the disc Player. Failure to observe this may cause malfunction due to the precise mechanism of this unit.
- ❖ Protect your disc. When you leave the car, be sure to eject the disc from this unit and store it separately away from direct sun light.
- ❖ Heat and humidity may damage the disc and you may not be able to play it again.
- ❖ Use the supplied screws to fix the monitor Metal Mounting Plate.

DVD Player Features

This player is a Roof Mount 10.2" TFT-LCD Color Display with DVD player that can be used as a stand-alone display, or can be integrated into a mobile multimedia system. This player has the following features:

- ✧ 10.2" TFT-LCD color monitor(16:9)
- ✧ Roof Mounting Application
- ✧ Pixel(dots):1152 x 234
- ✧ Wide Viewing angle(up/down/left/right):45/65/65/65
- ✧ NTSC and PAL Compatible
- ✧ Adjustable Contrast / Brightness / Color / Tint
- ✧ Manual Viewing Angle Adjustment
- ✧ Vertical Angle Adjustable: up/down<120°
- ✧ White LED Dome Light
- ✧ Automotive Startup Protection
- ✧ Built-in IR Transmitter
- ✧ IR Remote Control
- ✧ On Screen Display
- ✧ 2xAV Input
- ✧ 1xAV Output
- ✧ Slot-in DVD mechanism
- ✧ Support SD/MMC card and USB
- ✧ Made for iPod / iPhone

Note: Made for : iPod touch (4th generation), iPod touch (3rd generation), iPod classic, iPod nano (6th generation), iPod nano (5th generation), iPod nano (3rd generation), iPhone 4S, iPhone 4, iPhone 3GS.

- ✧ Capability to read : DVD Format/DVD-ROM/DVD±R/DVD±RW/CD-DA/CD-RW/CD-R/CD-ROM(XA)/MP3/WMA/VCD/SVCD/JPEG/MPEG4 .

Note:*Multi-session CDs and 320kbps WMA files can't be played.*

DVD Video Features

DVD drive that supports the following formats:

DVDs(12cm), video CDs(12cm), audio CDs(12cm), MP3 CDs(12cm)

- Playback of CDs with two recorded sessions (one audio and one data)
- Multi-sound: DVD audio that supports up to eight languages per film
- Subtitles: support up to 32 languages
- The playback of MP3 music files stored on a CD-R/CD-RW disc or USB SD or MMC or Card device

Basic Operation

Open the monitor

1. Press the Panel open button to lower the overhead monitor screen.
2. Gently swing the LCD down and adjust the angle for viewing.

CAUTION: *The LCD opens to a maximum angle of 120° degrees. Do not attempt to open it further.*

Stow the monitor

Gently push the back side of the display panel until it clicks into the overhead housing. The monitor turns off automatically when you return it to the closed position.

Note : *When closing the display panel , do not let cords or other items get caught between the display and the overhead housing . Doing so can seriously damage the screen.*

For your safety, close the LCD panel when you are not using it.

Handling disc

- To keep a disc clean, do not touch the play side (non-label side).
- Do not attach sticky notes to or put tape on a disc.
- Keep discs away from direct sunlight and heat.
- Store discs in a protective disc case.
- To clean the disc , wipe the disc outwards from the center with a clean cloth.

Turn the player on

1. Use the system with the vehicle running or with the ignition key switch in the "accessory" position .
2. To lower the screen , press the Panel Open button and move the screen into a viewing position. The system will power on automatically .
3. Touch **SOURCE** icon to switch the mode.

Note: You cannot insert a DVD into the slot if you have selected an alternate audio-video source (AV IN1 ,AV IN2 or iPod/iPhone).

Turn the player off

Close the monitor or press the power button on the remote control to turn the player off .

If a disc is playing when you turn the power off and back on again, the player continues playback from where you stopped.

Note: Once the player is turned off, you cannot eject a disc in the player.

Beep	Select the beep sound when touch each icon or button .
Reset	Returns all menu values to their default settings.

3. Press the ◀ or ▶ button to change the values of selected option.

Care and Maintenance

Cleaning the monitor

- Use a clean, soft, dry cloth to gently wipe dust and dirt from the screen.
- Do not use benzene, thinner, car cleaner, or other cleaners. These substances may damage the monitor system or cause the paint to peel.
- The surface of the LCD can be easily scratched. Do not rub it with anything abrasive.

Servicing the monitor

In the event that trouble arises, never open the monitor case, disassemble the player or attempt to repair it yourself. The internal parts are not serviceable by user. Opening any components will void the warranty.

CAUTION:

Changes or modifications to this product not approved by the manufacturer may void the warranty.

Cleaning the remote control

Use only a clean, soft, damp cloth to clean the remote control. Do not use lighter fluid, methyl alcohol or other solvents.

Cleaning discs

Before playing a disc, wipe it outwards from the center with a clean, soft cloth.

Use the remote control

- Use the remote control only inside the vehicle.
- Use the remote control no further than ten feet (three meters) from the sensor.
- Direct sunlight (or a very bright light) reduces sensitivity to remote signals. Do not use the player in direct sunlight.
- Any object that comes between the infrared sensor and the remote control may disrupt reception.

Replace the battery in the remote control

The battery needs changing when the buttons on the remote stop working or when you have to move close to player for the remote to work.

Precautions

- Dispose of used batteries properly.
- Do not dispose of used batteries throwing them into fire. If you do so, they may explode.
- Do not short the positive (+) and negative (-) terminals.
- Keep the battery and its holder away from young children. They may choke on the battery while attempting to swallow or chew on it.

Note: The battery type must be CR2025. Do not replace with any other battery type.

Procedure

1. Turn the remote up-side-down.
2. Simultaneously slide the battery latch in the direction of the arrow and pull the battery holder out of the slot.
3. Remove the old battery.
4. Place the new battery in the slot with the plus(+) side up.

What's in the box

In addition to this manual , the box contains :

Parts Name	Quantity
Player	1
IR remote control with battery	1
Power cable	1
AV 1 IN cable	1
AV 2 IN cable	1
AV OUT cable	1
ST4.2x16 screw	8
TB2.6x6 screw	7
PM 4x8 screw	4
Installation Bracket	1
Trim Ring	1
User manual	1

Note : Use only the contents of this package to install and use the system. Using accessories not provided with this player may damage the player.

Mounting and Wiring precautions

- This unit is exclusively for vehicles with a negative ground, 12V power supply.
- This unit may be installed with additional mobile audio components, such as a digital camera.
- Always use great care when attaching anything to a vehicle. Check clearances on both sides of the planned installation before drilling any holes or installing any screws.
- A good chassis ground connection is critical to minimize resistance and avoid noise problems. Use the shortest wire possible and securely connect it to the car chassis.
- When routing RCA cables, keep them away from the power cables and output speaker wires, engine, exhaust system, ect. Heat may damage wires.
- If the fuse should blow, make sure that all connections are correct, the cables have not caused a short circuit, and no wires are damaged. Then replace the fuse with a new fuse of the same amperage value as the original fuse. When replacing a fuse, never let the power cable touch any metal part or other wire.
- Never let disconnected cables or terminals touch metal on the car or any other conducting material.
- To prevent short circuit, do not remove the caps from unused terminals or from the ends of unconnected cables.
- Insulate unconnected wires with vinyl tape or other similar material.

Warning!

To prevent short circuits during installation, disconnect the vehicle's negative battery lead before making any power connections.

Installation procedure

1. Screw the Installation Bracket to the beam or plywood using the ST4.2x16 screws.
2. Installing the trim ring on the player using the TB 2.6x6 screws .
3. Plug in power harness and audio/video source cables into the overhead monitor .
4. Attach the player to the Installation Bracket using the PM4x8 .
5. Check the car's brake lights, blinkers, wiper, etc. to ensure they are working property
